Members of the Interim Budget Committee Section D,

The Montana Department of Corrections respectfully submits the following information in response to questions posed by members of the Interim Budget Committee Section D at its Jan. 23, 2023 hearing.

1. Please provide the 990's for all entities that are community corrections providers.
 - The DOC does not ask for, or maintain, these documents on behalf of community corrections providers.
2. How many inmates are serving life sentences?
 - 114 offenders are serving life sentences. Of those:
 - 51 are serving life without the possibility of parole
 - 61 are serving life with the possibility of parole
 - 2 are serving life without the possibility of parole in addition to sentences in which they have life with the possibility of parole
3. How many inmates are on the waiting lists for CD, SO, or anger management treatment?
 - At MSP, MWP and CCC:
 - Chemical Dependency
 - Secure care SUD programming - 217 (36 are designated Priority 1)
 - Program length varies between one and four months.
 - Sexual Offender
 - Secure care SO programming, - 44 (26 are designated Priority 1)
 - Program length varies between three months and three years.
 - Anger Management
 - 84 (with earliest release of July 2024)
 - Program length varies between six and 12 weeks.
 - Program involvement is based on priority level which considers factors including court orders, behavior, release date, and more.
4. What is the average wait time for an inmate to get into CD or SOP classes? If differs by facility, please provide for each.
 - The DOC does not maintain an average wait time list for CD or SOP. Class participants are placed in treatment classes/groups according to priority status (i.e. release eligibility)
 - Priority level considers factors including court orders, behavior, release date, and more.

5. How does DOC help inmates get housing and jobs when released?
- PRCs have employees dedicated to assisting offenders with job development. These individuals work with local employers to match offenders to jobs. Additionally, they work closely with the local Job Service as do DOC Probation and Parole officers. Housing is more of a challenge. PRCs and P&P often maintain informal lists of housing providers who accept offenders. Additionally, offenders find and apply for housing using the same methods as other members of the public.
6. As of Jan. 15th, how many inmates are on parole but remain incarcerated 30 days after their hearing? Does that number represent an average for typical day and if not, why? What accounts for the person remaining incarcerated after 30 days being granted parole?
- Inmates are not actually paroled until all conditions are met (i.e. parole plan has been investigated and accepted, they have completed recommended/required programming, etc.) Only once those conditions are met does the Board of Pardons and Parole issue a parole certificate.
 - As of 1/15/23, 95 offenders were still incarcerated 30 days beyond the date their parole was granted. Of those 95 offenders, 49 were granted parole between 30 to 90 days prior (22 in December 2022; 16 in November 202; and 11 in October 2022). These numbers appear to remain consistent over time.
 - Institutional Probation & Parole officers track the specific requirements for offenders who have been granted parole and assist with any coordination necessary for releasing to the community. Most offenders in this group must successfully complete specific programming and/or be accepted to a placement in the community prior to leaving the facility. Failure to meet these standards may result in a delay.

Disposition Type	Total
After a Later Date	7
To an Acceptable Plan	21
To Custody or Detainer	2
Upon Successful Completion	65

7. On what basis can a community corrections provider deny a placement request from an inmate? Do the contract with CC providers preclude them from denying placement on certain grounds?
- Decisions regarding acceptance of offenders into community corrections programs are made by facility screening committees.
8. When do contracts with CC providers end?
- See Attachment A.
9. What are the conditions that mandate a transfer of inmates between facilities and the cost per transfer? How many transfers occurred in FY22?
- Transfers between prisons are typically made as a result of offender disciplinary issues; medical needs; separation needs to ensure offender safety (including managing Security Threat Groups); programming requirements/needs; to meet the department's fiscal responsibilities; population management; custody/classification needs; and inmate requests.

- Estimated Costs per transfer:

	Estimated Fuel	Estimated Staff Time	Total Estimated	Number of Round Trips FY2022
Transfers between MSP and Shelby (2 vans per round trip)	\$352.00	\$1,336.40	\$1,688.40	62
Transfers between MSP & Dawson County (2 vans per round trip)	\$704.00	\$2,672.80	\$3,376.80	35

- Total of all offenders transferred in FY2022:

MSP to Shelby	595
Shelby to MSP	138
MSP to Dawson County	117
Dawson County to MSP	52
Total:	902

10. Per facility, what is the inmate waiting list for vocational training?

- MSP – 172 inmates waiting for an average of 3-4 months. (May be working jobs in facilities or participating in other educational training in the interim.)
- MWP – none
- PHCF – none
- DCCF – N/A
- CCC – 30 inmates waiting for an average of six to eight weeks

11. What percentage of inmates receive a housing allowance when released?

- In FY22:
 - 97 individuals or 7% of annual releases received and used a rental voucher
 - 174 individuals or 13% of annual releases received transitional assistance funds for housing-related expenses

12. Describe the transitional services DOC provides to inmates who have served all their time. Is this standard or are there exceptions?

- The DOC does not have jurisdiction over individuals once they discharge their sentences. As such, the department does its best to prepare them for their return to the community before they leave its facilities. Case managers and/or IPPOs work with offenders to create a reentry plan to include housing, employment, ongoing treatment, and any other identified needs. The Montana Department of Labor receives a form to enroll them into WorkSource services if employment has not been pre-established and DLI assigns a member of their team to assist the individual in finding employment. Individuals in this category receive the same assistance as inmates who are preparing for parole.

13. How many current inmates a MSP were at Warm Spring before being placed at MSP? Does MSP have medical staff qualified to provide for the care of the mentally ill?

- Twenty-eight inmates were at Warm Springs prior to being placed at MSP. MSP does have qualified staff to care for these individuals. However, staffing issues and lack of appropriate treatment space make it challenging.

14. How long is the waiting list for non-court mandated education classes? What is the average time a person is on the waiting list before accessing classes?
- One hundred and sixty-four individuals are waiting for education classes at DOC facilities. On average, the wait time is three to four months.
15. What is the average waiting time for an inmate to use a phone? If differs by facility, please provide for each.
- MSP: At times, the units on MSP's Low Side has lines for the telephones of between 5-6 inmates. In the High Side units, there is little to no wait. MSP suspended in-person visitation due to low staffing, and in order to better facilitate communications, increased call times from 15 minutes to 30 minutes. Interestingly, offenders are submitting complaints/requests to return the call time to 15 minutes. In addition, there is no space to add additional phones to the units.
 - MWP: Line-ups to use phones at MWP are infrequent. It is not common for the DOC to receive complaints/requests about difficulties accessing the phones.
 - PHCF: Line-ups to use phones at PHCF are infrequent. It is not common for the DOC to receive complaints/requests about difficulties accessing the phones.
 - DCCF: Line-ups to use phones at DCCF are infrequent. It is not common for the DOC to receive complaints/requests about difficulties accessing the phones.
 - CCC: Line-ups to use phones at DCCF are infrequent. We have not received any inmate complaints about access to the phones.
16. Regarding contract compliance, provide a list of contract violations by Core Civic since the beginning of FY21.
- Below is a list of Crossroads Correctional Center contract violations from July 1, 2020, through December 31, 2022. All the contract violations are for failing to fill permanent positions within the allowed recruitment time and/or for failing to fill mandatory posts on a daily requirement.

DATE	CONTRACT VIOLATION	ASSESSMENT AMOUNT

17. When DOC screens offenders given a DOC Commit status, what information do they use to make decisions that is not contained in the PSI report?
- The director's placement directive (Attachment B) defines the process and criteria for this. The primary driver is the court's recommendation, which comes after development of the PSI, and the risk assessment, which is included in the PSI. Additionally, information that becomes available after the PSI is issued is considered and may include the sentence and court-ordered requirements imposed in the current case and all concurrent cases; behavioral health evaluations; placement history; victim input; behavior in the jail or at a DOC facility; disciplinary history; etc.
18. Does DOC have a list of the offenders in secure facilities that shows their age, the most serious offence for which they are incarcerated, and the date of placement in the secure facility?
- See Attachment C. Because staff members would be required to examine records individually to determine the most serious offense, this information is not provided. In addition to the 2,696 offenders included in the report, this group includes 41 confidential offenders for whom the DOC cannot release identifying information.
19. 53-1-211(2)(b) and (5) requires the Quality Assurance Unit to conduct evaluations of programs to reduce recidivism funded by the State. What programs have been evaluated in FYs 2021-23 by the Unit?
- See Attachment D.
20. 46-23-218(4) requires the Department and the Board to "compile data [beginning April, 2018] to validate the parole guidelines after gathering recidivism results for the last 3 years". Please provide any analysis, reports, and the data compiled generated as a result of this requirement.
- Within the next couple of weeks, the DOC will have dashboards reflecting data contained in the "old" definition of recidivism and the new definition of recidivism posted to its website. The new definition is two-pronged:
 - Prison recidivism - will consider rearrest, reconviction, and reincarceration over the three-year period following release from prison.
 - Non-prison recidivism - will consider rearrest, reconviction, revocation, and absconding, and will monitor throughout the time period an offender is on active supervision and the three-year period after exiting the program."
 - The Board of Pardons and Parole is participating in a validation study with CJI.
21. Is the purpose statement in 53-1-201 adequate?
- The DOC does not have any proposed changes at this time.
22. DOC's Organizational Goals, Strategies, and Measurements
- See Attachment E

23. Additional information about document scanning project.

- The department has approximately 9,000 active files (for active offenders) and approximately 30,000 inactive files (for offenders who are still on probation and parole, or files that need to be archived). Files can measure up to 3.5 inches (with multiple files for some offenders). These are not kept in banker's boxes, but assuming an average file size of 1 inch, they would likely fill about 2,400 bankers' boxes. Scanning active files would be the priority for this project. As part of its exploration related to this project, the DOC had State Print & Mail (DOA) scan three sample boxes of files (in 2020). DOA charges by time spent for document scanning services. Time spent averaged six hours per box due to removal of documents from folders, removal of staples, and performing QA on scanned files. DOA's cost estimate at that time was approximately \$233 per box.

24. Organizational chart representing repurposed positions, new positions.

- This is in process.

Please let us know if there is any additional information we can provide related to these items.

RE: HB 2: Offender Prescreening and Placement

As directed by HB 2, effective July 1, 2021:

- Probation and Parole staff will complete prescreening of offenders where a PSI is ordered and there is a plea agreement for a DOC commitment.
 - Per HB 2: “Prescreening will not be completed for offenders who have a plea agreement for a suspended or deferred sentence, a prison commitment, or when no PSI is ordered.”
- When a PSI is ordered and there is a plea agreement for a DOC commitment, Probation and Parole staff will provide a placement recommendation to the Court that is based on the risk/needs evaluation (assessment) of the offender using the guide provided on page 2 of this memo.
- When determining placement of an offender already on supervision or in cases where no PSI was ordered, DOC staff will do so based on a risk/needs assessment and using the guide provided on page 2 of this memo.
- In placing offenders in treatment facilities, DOC staff shall rely on risk and needs assessment tools and the underlying offense. Behavioral health assessment tools will be used to determine an offender’s treatment dosage and needs. Clinical Substance Use Disorder (SUD) evaluations are no longer required by the DOC before placement in a treatment facility.
 - Treatment facilities will conduct SUD evaluations upon offender arrival at the facility and treatment and programming will be delivered according to the dosage indicated.
 - If the Court orders an SUD evaluation as part of the PSI process, the evaluation will be completed; however, it is not necessary for screening.

DOC Placement Determination Guidance, per HB 2 (2021):

If the Court recommended a placement in an original sentence or revocation sentence, follow the recommendation. If the DOC is unable to follow the recommendation, DOC will document the reason and provide notification to the Court of the reason within 40 days, as required by SB 47.

If Court didn't recommend a placement:

- If low risk*, community supervision placement UNLESS offender:
 - Is homeless,
 - Has a recent history of behavior that indicates a need for greater structure,
 - Was convicted of an offense that has a statutory requirement for placement,
 - The offense/violation represents a repeating offense pattern (i.e. repeated DUIs or multiple instances of domestic violence/violations of protective orders),
 - Has a victim under 12, or
 - Has a victim who died as the result of an offense.
- If moderate risk*, a facility placement (treatment only or prerelease center only) or combination of placements (treatment + prerelease center) may be appropriate if a higher level of structure is indicated by:
 - Offense history,
 - Placement/treatment** history,
 - Offender non-compliance on supervision,
 - Sustained drug use in the community despite interventions, and
 - Severity of the offense.
- If medium or high risk* on the WRNA or high or very high risk* on the MORRA, a facility placement or combination of placements** is required. If no facility will accept the offender, the DOC will document the instance and determine the most appropriate alternative placement to address the offender's risk/needs while maintaining public safety; the placement will likely be prison. In rare circumstances, a recommendation might include community placement in a structured setting such as treatment court, ISP, etc. based on an offender's particular circumstances.

*use the MORRA and WRNA. For sex offenders (SO), a SO-specific risk assessment, along with the MORRA or WRNA, will be used. Placement will be based on whichever assessment risk score is higher. The MORRA and WRNA risk levels are as follows:

MORRA	WRNA
Low	Low
Moderate	Moderate
High	Medium
Very High	High

**if offender need for substance use treatment is indicated, placement should be at a shorter-length program (90-days) if the offender has no prior residential treatment placements. If offender need for substance use treatment is indicated and the offender has previously been to a residential treatment placement, the offender will be considered for the 9-month treatment placement.

CORRECTIONAL PROGRAM CHECKLIST (CPC)

What is the Correctional Program Checklist (CPC)?

By statute (MCA 53-1-211), the DOC is required to “adopt an evidence-based program (EBP) evaluation tool that measures how closely correctional programs meet the known principles of effective intervention.” The CPC, developed by the University of Cincinnati Corrections Institute, is the tool the DOC uses to accomplish that.

What factors does the CPC consider?

The CPC tool considers two basic areas to measure adherence:

- Capacity – measures whether a program has the capability to deliver evidence-based interventions and services for offenders. Considers three domains: Program Leadership and Development, Staff Characteristics, and Quality Assurance.
- Content – focuses on the extent to which the program meets principles of effective intervention. Considers two domains: Offender Assessment and Treatment Characteristics.

DOC CPC Evaluations

Program or Group Name	Final Report Date	Overall Score
Elkhorn Treatment Center	8/10/2019	32.5% (Low)
MSP Sex Offender Program	8/9/2019	35.5% (Low)
Gallatin County Reentry Program	10/24/2019	54.5% (Mod)
WATCH West/CCP West	11/25/2019	36.8% (Low)
Pine Hills Juvenile Sex Offender Program	4/8/2020	36.4% (Low)
Alpha House	6/26/2020	34.1% (Low)
Passages-ADT	9/27/2021	64.5% (High)
Butte PRC/Women's Transition Center	11/5/2021	39.7% (Low)
Helena Prerelease Center	1/13/2022	41 % (Low)
NEXUS	3/9/2022	44% (Low)
CCP East	2/18/2022	63.2% (High)
Great Falls Prerelease Center	9/16/22	34.1 (Low)
Passages Prerelease Center	1/10/23	61.5 (High)
Gallatin County Re-entry Program	1/28/23	55.8 (High)

*Average national overall score is 49%.

An evaluation is in progress for the MSP Sexual Offender Program. These occur on a three-year cycle.

CPC Process

Trained evaluation team:

- Visits programming site.

- Conducts onsite activities including interviews (staff, participants), program material review, direct service observation, case and treatment file review, interview of family, etc.

- Scores program based on designated indicators.

- Provides recommendations to bring program into better alignment with research.

- Drafts report and submits for program feedback.

- Submits final report.

- Provides technical assistance to programs related to implementation of recommendations.

How are programs scored using the CPC?

Seventy-three indicators measured, with a total of seventy-nine possible points.

Very High Adherence – 65-100%

High Adherence – 55-64%

Moderate Adherence – 46-54%

Low Adherence – 45% or less

No program will ever score 100% as the tool is based on the perfect program. Also, the evaluation is based on a “snapshot in time” so programs are measured at their current capacity.
