

ERGONOMIC WORKSTATIONS

QUICKSTAND WORKSTATION

SPECIFICATIONS

The QuickStand height-adjustable workstation raises the bar for ease and stability among sit-to-stand products. QuickStand neatly attaches to the back of any work surface, placing the screen and keyboard in an ergonomically correct position for the user.

- Weightless operation and a plug-and-play cable management system
- Adjustable keyboard and monitor arm platform provides exceptional stability while typing
- Lightweight, long-term durability
- Innovative counterbalance mechanism allows easy transition from sitting to standing positions
- Encourages movement - creating a truly active workspace

SPECIFICATIONS

Today's diverse workforce requires workcenters that fit the entire range of body shapes and sizes.

- Peak height of 48"
- Adjusts at 2" per second
- LCD control panel with 3 programmable memory height presets
- Easy to assemble
- Diagnostic kit for on-site servicing
