The payment amount due will be calculated using the hours worked multiplied by the hourly wage increase, plus an additional 20% to account for additional pay-related expenses, such as increased employer taxes or retirement contributions. Should the amount due be greater than the initial up-front payment, the additional amount owed will be paid to Contractor with the next monthly invoice payment. Should the amount due be less than the initial up-front payment, the difference will be deducted from Contractor's next monthly invoice payment. Once the total amount available has been expended, no additional payments will be made. This funding will no longer be available after June 30, 2025. These funds are not included in the overall contract max. As a part of contract monitoring processes, the department may request access to payroll records at any time, for any employee, for the purpose of verifying the raise was provided. Should sufficient funding be available, hourly wage increases in excess of the dollar amounts listed above are allowed, provided that priority is given to employees making less than \$75,000 per year. These funds may only be used for wage increases and the associated employee benefits. They may not be used for bonuses or other operating expenses.
