I. Purpose:
To establish guidelines and procedures governing the mental health care of inmates who are identified as victims of sexual assault or sexual misconduct as outlined in the PREA (2003).

II. Definitions:
Mental Health Staff - includes qualified health care professionals and others who have received special instruction and supervision in identifying and interacting with individuals who need mental health services.

Mental Health Therapeutic Intervention - any intervention by a licensed or license-eligible clinical therapist or clinical psychologist.

Qualified Mental Health Professionals: includes psychiatrists, psychologists, psychiatric social workers, licensed professional counselors, psychiatric nurses, or others by virtue of their education, credentials, and experience are permitted by law to evaluate and care for the mental health needs of patients.

III. Procedures:
A. Offender Reporting.
   Mental health staff receiving initial reports of sexual misconduct / sexual assault from inmates will immediately write an incident report and notify the Command Post of the incident.

B. Access to Emergency Mental Health Services.
   1. Immediately upon receiving information from custody staff and/or medical staff that an inmate has been a victim of sexual assault, the mental health staff member who received the information will complete an Emergency Questionnaire (see attachment A) to ascertain suicide ideation. If mental health staff is not available, Command Post staff will complete the Emergency Questionnaire form and contact the on-call qualified mental health professional to confirm and coordinate the findings of the Emergency Questionnaire form.
   2. After interviewing the inmate, the mental health staff member will contact the on-call qualified mental health professional for further instructions.
   3. If the Emergency Questionnaire indicated current suicide risk, the on-call qualified mental health professional will perform a suicide risk assessment utilizing an Emergency Mental Health Evaluation, Suicide Risk Assessment, and Treatment Plan form (see attachment B).
4. If the on-call qualified mental health professional deems the inmate a suicide risk, the inmate will be placed in the infirmary, with the appropriate level of observation, and will be seen by the qualified mental health professional within 12 hours.

5. The on-call qualified mental health professional will refer the victimized inmate to a clinical therapist for follow-up treatment interventions. Inmate victims of sexual abuse shall receive timely, unimpeded access to crisis intervention services, the nature and scope of which are determined by the clinical therapist according to their professional judgment.

6. The on-call qualified mental health professional will refer the inmate perpetrator to a clinical therapist for follow-up treatment interventions. Clinical therapists will conduct a mental health evaluation of inmate perpetrators of sexual abuse within 60 days of learning of such abuse history and will offer treatment when deemed appropriate.

7. Staff documentation and completed forms, including a treatment plan, will be placed in the inmate’s mental health file.

C. Ongoing Mental Health Care for Sexual Abuse Victims and Perpetrators of Inmate Abuse
   1. Clinical therapists will offer mental health evaluations and, as appropriate, treatment to all inmates who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility.
   2. The evaluation and treatment of such victims shall include, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody.
   3. Follow-up meetings with a clinical therapist will occur within 14 days of an initial intake screening if the inmate indicates to a staff member that they experienced prior sexual victimization or was the perpetrator of sexual abuse and would like to meet with mental health.
      a. Clinical therapists shall obtain informed consent from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the resident is under the age of 18.

D. Inmate Refusal of Care
   1. If the inmate victim or inmate perpetrator refuses mental health therapeutic interventions following a sexual assault or misconduct, the clinical therapist will document the refusal utilizing a Montana State Prison Refusal of Treatment Form (see attachment C).

IV. Closing:
Questions concerning this operational procedure will be directed to the Health Services Manager.

MSP HS B-05.0, attachment A (page 2 of 2)
A. General Information:
Inmate Name and AO# ____________________________________________
Date: __________________________ Time: ________ hrs. Unit: ________

B. Nature of the Emergency:
Describe what makes this an emergency:
☐ Threat of suicide
☐ Threat of self-harm
☐ Out of touch with reality
☐ Bizarre behavior
☐ Dangerous/disruptive behavior
☐ Place on a BMP or section G

C. Statements from the Inmate:
What did the inmate say to you?
________________________________________________________________
________________________________________________________________
________________________________________________________________
What has staff reported about the inmate?
________________________________________________________________
________________________________________________________________
________________________________________________________________

D. Inmate appearance:
How does the inmate appear?
☐ Normal ☐ Angry ☐ Sad
☐ Tearful ☐ Happy ☐ Other __________________________

E. Inmate behavior:
How did the inmate act out?
________________________________________________________________
________________________________________________________________
When you talked to him was he:
☐ Cooperative ☐ Uncooperative
☐ Hostile ☐ Suspicious

F. Motive/Security issues:
Why did the inmate say he was acting out?
☐ To change housing.
☐ Has issues with other inmates.
☐ Sex offender issues.
☐ Not getting along with his cell/block/pod mate(s).
☐ Anxiety about being in prison / living in MDIU.
☐ Other __________________________
Explain: ________________________________________________________
