How many Montana DOC inmates are located there and why?

DOC prisons are over capacity. Placing a portion of Montana inmates (240) at an out-of-state facility allows the department to better manage its prison population including inmates who are waiting for transfer to prison from local detention centers. The DOC continues to work with the HB 5 Select Committee on Corrections Facility Capacity and System Development to find a long-term solution.

How were inmates selected to be transferred to Saguaro Correctional Center?

Inmates were transferred based on numerous factors including:

- Whether they wanted to volunteer
- Custody level
- Proximity to parole eligibility
- Active participation in treatment, other programming
- Medical, mental health, and dental treatment in process

Are inmates still under the supervision of the Montana DOC even though they were transferred to Arizona?

Yes, they are still under the supervision of the Montana DOC, similar to inmates at Dawson County Correctional Center and Crossroads Correctional Center in Shelby, Mont.
